# California Statewide DUI Program Exit Status Benchmarks (FY 1994/95 to FY 2013/14)

**Note to Readers:** Data compiled here are based on the quarterly summary reports submitted by individual DUI programs to the state oversight agency, Department of Health Care Services (DHCS), from FY1994/95 to FY2013/14. The statewide figures in this document represent that totality of all data reported to DHCS from all DUI programs. Three exit status measures are presented here: Completion, Termination, and Transfer-Out. The rate of completion (Comp\_rate), termination (Term\_rate), Transfer\_out rate (X\_rate) is the proportion of an exit status among the total exits; thus the totality of all three exit measures should add up to 100 percent.
